## **Preliminary**

### **The Purpose and Structure of the Public Investment Plan (PIP)**

The Public Investment Plan (PIP) sets out planned investment decisions that the Government of Uganda plans to realise over the medium term (FY2011/12 – FY2013/14).

The PIP provides an overview of all investment profiles for Central Government Votes with development funding (either GoU and or Donor). Each vote level report is sub-divided into the following sections:

#### **Vote Overview**

This Section provides a summary of vote expenditures and medium term projections by economic classification (Wage, Non-Wage Recurrent, Domestic and Donor development). It provides an overview of the Votes' Mission and medium term investment plans, including a breakdown of consumption based and investment expenditures over the three year period.

#### **Vote Function Profiles**

This section provides details of the Vote Function composition, including the contribution of Vote Function Outputs to Sector Outcomes and the projects and programmes (and respective domestic and donor allocations) that comprise the Vote Function. The section then provides a summary of key performance indicator performance and output allocations. Extracts from project work plans appear in this section for Vote Functions with major capital investments.

#### **Summary of Donor Project Funding to the Vote**

The final section of the report provides details of donor funding by funding source over the medium term.

#### **Detailed Annual and Quarterly Work plans to supplement the PIP**

More in-depth operational information on the development projects contained within the Public Investment Plan can be found in Annex 2 of the Ministerial Policy Statements and the Performance Contracts for FY2011/12. These reports provide targeted Annual and Quarterly Work plans and Procurement plans, which provide greater detail on project operation. This includes breakdowns by planned output, activity and input across the Financial Year, as well as information on locations of activity.

The Vote's Mission Statement is:

To catalyze the social economic transformation of Uganda and the region, through enhanced technology use. To carry out applied research and develop or source appropriate technology in order to create a strong, effective and competitive industrial Sector for the rapid industrialisation of Uganda. Hence catalyse the socio-economic transformation of Uganda and the region through enhanced technology use.

Medium Term Vote Investment Plans:

The funding in the medium term is still very inadequate to achieve an industrialized and manufacturing economy yet industrialization is a key strategy in the National Development Plan to addressing the high levels of unemployment. It is mainly through support to value addition that primary industries will develop and hence fed into a manufacturing lead economy.

The Vote's Mission Statement is:

To handle and prosecute criminal cases in the country, having regard to public interest, fair administration of justice and the need to prevent abuse of the legal process

Medium Term Vote Investment Plans:

Whereas the directorate would want to overhaul the current prosecutions case management system, this is not possible because of the insufficient allocation of funds for purchase of File and Storage servers and relevant software. The directorate desire is to construct a minimum of 8 Office buildings and furnishing yearly but this is not possible with the current development funding level. Most of the directorates offices are located distances away from courts which dictates travel and yet there are not enough funds for purchase vehicles.

The Vote's Mission Statement is:

To report to Parliament on the propriety and regularity of the manner in which public funds are spent.

Medium Term Vote Investment Plans:

Capital purchases in the FY 2011/12 will reduce from 1.4bn to 0.7bn because the projected vehicle requirement for the FY 2011/12 was reduced to 2 compared to 5 in the previous financial year and the furniture budget included donor funding from JICA which was a one off expenditure which augmented the office's capacity to acquire furniture for 39 new officers recruited. However, in financial years 2012/13 and 2013/14, capital purchases will slightly increase to 0.9bn and 1.1bn respectively due to the need to cater for the increased number of staff resulting from the implementation of the new staff structure and increased audit entities which will require acquisition of more motorvehicles and furniture.

The Vote's Mission Statement is:

To Provide Excellent Revenue Service with Purpose and Passion

Medium Term Vote Investment Plans:

A Total of UGX 15.4Bn will be spent on Capital Purchases over the medium term to upgrade the URA Network. URA has automated most of its processes and the latest being the eTax system that facilitates the e-payment of taxes. There is therefore need to enhance the current network in line with the infrastructural needs of automating our systems.

The URAnet contract with UTL is expected to expire during the Financial Year 2011-2012 and this will therefore require significant funding to acquire additional equipments as well as upgrading the existing ones to the more reliable ones.

On motor vehicles, a big portion of the current fleet is aged and cannot adequately facilitate our operations especially enforcement. The cost of maintain the old fleet is very high as the vehicles breakdown very frequently. They also pose a great danger to the lives of staff who use them.

**Vote Function: 1454 Revenue Collection & Administration**

### Vote Function Profile

**Responsible Officer:** The Commissioner General - URA

**Services:** Through her role of facilitating payment of Government Revenue, URA is increasingly delivering a significantly larger proportion of the resources that allow Government to provide programmes and services that improve the quality of life of the people of Uganda.

Taxation is also a means by which Government redirects resources to strategic and/ or priority sectors in seeking to develop the economy and to influence behaviours.

The Customs Service, in seeking to protect our society, is in the front line in the fight against smuggling and the illegal importation of contraband including counterfeit goods. Recent years have witnessed a shift in focus from revenue per se to facilitating the smooth movement of legitimate trade in goods into and out of Uganda.
